KHANT SI THU HLAING

JAVA SYSTEM ENGINEER|CORE BANKING & FINANCIAL SYSTEMS

khantsithuhlaing1@gmail.com | +95 9 455 477 047 | Hlaing Township, YANGON.

PROFESSION SUMMARY

Java Full-Stack Engineer with experience in core banking, microfinance, and fintech systems. Skilled in Java, Spring Boot, Hibernate, Angular, and MySQL across development, maintenance, and production support. Builds RESTful APIs, financial reports, scheduled jobs, and integrations; troubleshoots production issues and translates business requirements into reliable solutions.

WORK EXPERIENCE

Mid-Senior Java Developer *October 2026 - Present*

Myanmar Software Integrated Solutions (MSIS)

- Take greater ownership of core banking system maintenance and enhancements.
- Design reliable solutions for complex financial business requirements.
- Investigate root causes and resolve cross-layer production issues.
- Support junior developers and collaborate with functional consultants.
- Drive improvements in system reliability, maintainability, and operational efficiency.

Junior Java Developer *April 2025 - October 2026*

Myanmar Software Integrated Solutions (MSIS)

- Developed and customized features for core banking and microfinance systems.
- Implemented loan and savings workflows, financial calculations, and REST APIs using Java and Spring Boot.
- Built Angular features, financial reports, scheduled jobs, and database enhancements.
- Deployed applications in Linux/AWS environments and integrated Amazon S3 for document storage.
- Integrated external services, supported production systems, and resolved complex technical issues.
